About Me

I am a third-year student at Belarusian State University (BSU), Faculty of Applied Mathematics and Computer Science (Probability Theory and Mathematical Statistics). I am a backend developer with no formal work experience. I have participated in startup project competitions and hackathons organized by Space. I am committed to thoroughly mastering new knowledge and skills.

Skills

Python, C++, Java, Modelio, MSSQL, PostgreSQL, FastAPI, English – B1.

Work Experience

Space University Startup Project Competition

October 2025 – Present
Developing the backend for an application that uses AI to arrange unconventional meetings and dates.
Stack: Python, PostgreSQL, FastAPI.

Python and FastAPI Courses
